

2024/1956

17.7.2024

COMMISSION IMPLEMENTING DECISION (EU) 2024/1956

of 16 July 2024

amending Implementing Decision (EU) 2016/2323 establishing the European List of ship recycling facilities pursuant to Regulation (EU) No 1257/2013 of the European Parliament and of the Council on ship recycling

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1257/2013 of the European Parliament and of the Council of 20 November 2013 on ship recycling and amending Regulation (EC) No 1013/2006 and Directive 2009/16/EC ⁽¹⁾, and in particular Article 16 thereof,

Whereas:

- (1) Article 6(2), point (a), of Regulation (EU) No 1257/2013 requires ship owners to ensure that ships destined to be recycled are only recycled at ship recycling facilities included in the European List of ship recycling facilities ('European List') published pursuant to Article 16(2) of that Regulation.
- (2) The European List is set out in Commission Implementing Decision (EU) 2016/2323 ⁽²⁾.
- (3) The authorisations of Arise Recycling AS, a ship recycling facility located in Norway, is due to expire on 1 October 2024. The Commission has received information from Norway that the authorisation to conduct ship recycling granted to that facility has been verified, in accordance with Article 14 of Regulation (EU) No 1257/2013. The European List should therefore be updated accordingly.
- (4) The authorisation of Sagro Aannemingsmaatschappij Zeeland B.V. located in the Netherlands expired on 28 March 2024 and the competent authority informed the Commission that the facility did not request to renew its permit. That facility should therefore be removed from the European List.
- (5) The authorisation of UAB Demeksa located in Lithuania expired on 25 May 2024 and the competent authority informed the Commission that the facility did not request to renew its permit. That facility should therefore be removed from the European List.
- (6) The authorisation of Ship and Industrial Service Ltd located in Bulgaria expired on 25 January 2024 and the competent authority informed the Commission that the facility is ceasing its activity. That facility should therefore be removed from the European List.
- (7) Denmark informed the Commission that the facility JATOB ApS has changed name to Jatob Frederikshavn ApS and the Netherlands informed the Commission about a change in the method of recycling for Damen Verolme Rotterdam B.V. Furthermore, Kiliçlar asked to add an information in their contact details. The European List should therefore be updated to reflect these changes.
- (8) The Commission has received two applications, in accordance with Article 15(1) of Regulation (EU) No 1257/2013, for Dortel Gemi Söküm Demir Çelik San. Ve Tic. Ltd. Şti. and Ege Gemi Söküm San Ve Metal San.Tic. A.Ş., ship recycling facilities located in Türkiye, to be included in the European List. Having assessed the information and supporting evidence provided and gathered in accordance with Article 15 of that Regulation, the Commission considers that the facilities comply with the requirements set out in Article 13 of that Regulation to conduct ship recycling and to be included in the European List. The European List should therefore be updated to include those facilities.

⁽¹⁾ OJ L 330, 10.12.2013, p. 1, ELI: <http://data.europa.eu/eli/reg/2013/1257/oj>.

⁽²⁾ Commission Implementing Decision (EU) 2016/2323 of 19 December 2016 establishing the European List of ship recycling facilities pursuant to Regulation (EU) No 1257/2013 of the European Parliament and of the Council on ship recycling (OJ L 345, 20.12.2016, p. 119, ELI: http://data.europa.eu/eli/dec_impl/2016/2323/oj).

- (9) Anadolu Gemi Sokum located in Türkiye has demonstrated that it complies with the requirements of the Regulation with respect to the safe and environmentally sound dismantling of floating platforms and included specific procedure in its ship recycling facility plan. The limitation related to the dismantling of rigs should therefore be removed in the European List. At the same time, it should be recalled that the yards remain bound by the limit of the width of the vessels they can receive. The limit set by the width of the vessel could only be considered to be removed following the review of a cooperation agreement with an EU listed neighbouring ship recycling facility which would cover in a satisfactory way the nature and conditions of such cooperation. To be consistent with the terminology used under the definition in Article 3(1), point (1), of Regulation (EU) No 1257/2013, and taking into account the need for specific dismantling procedures, the limitations for 'rigs' should be replaced by a limitation for 'floating platforms'. The European List should therefore be updated to reflect these changes.
- (10) Implementing Decision (EU) 2016/2323 should therefore be amended accordingly.
- (11) The measures provided for in this Decision are in accordance with the opinion of the Committee established by Article 25 of Regulation (EU) No 1257/2013,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision (EU) 2016/2323 is replaced by the text in the Annex to this Decision.

Article 2

This Decision shall enter into force on the third day following that of its publication in the *Official Journal of the European Union*.

Done at Brussels, 16 July 2024.

For the Commission
The President
Ursula VON DER LEYEN

The European List of ship recycling facilities referred to in Article 16 of Regulation (EU) No 1257/2013

Part A

Ship recycling facilities located in a Member State

Name of the facility	Method of recycling	Type and size of ships that can be recycled	Limitations and conditions under which the ship recycling facility operates, including as regards hazardous waste management	Details on the explicit or tacit procedure for the approval of the ship recycling plan by the competent authority ⁽¹⁾	Maximum annual ship recycling output, calculated as the sum of the weight of ships expressed in LDT that have been recycled in a given year in that facility ⁽²⁾	Date of expiry of inclusion in the European List ⁽³⁾

UNITED KINGDOM – NORTHERN IRELAND

Harland and Wolff (Belfast) Ltd Queen's Island Belfast BT3 9DU Northern Ireland Phone +44(0)2890534189 Fax +44(0)2890458515 E-mail Eoghan.Rainey@harland-wolff.com	Dry dock and wet berth	Ships as defined in point (1) of Article 3(1) of Regulation (EU) No 1257/2013 Maximum ship dimensions: Length: 556 meters Width: 93 meters Draught: 7,5 meters DWT: 550 000	The site is authorised by way of a waste management licence, authorisation number LN/20/11 that limits the operations and places conditions on the operator of the facility.	Explicit approval	12 000 ⁽³⁸⁾	16 June 2025
---	------------------------	--	--	-------------------	------------------------	--------------

⁽¹⁾ As referred to in Article 7(3) of Regulation (EU) No 1257/2013.

⁽²⁾ As referred to in Article 32(1), point (a), third sentence, of Regulation (EU) No 1257/2013.

⁽³⁾ The date of expiry of inclusion in the European List corresponds to the date of expiry of the permit or authorisation granted to the facility in the Member State.

⁽⁴⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 50 000 LDT per year.

⁽⁵⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 30 000 LDT per year.

⁽⁶⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 50 000 LDT per year.

⁽⁷⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 30 000 LDT per year.

⁽⁸⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 200 000 LDT per year.

⁽⁹⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 50 000 LDT per year.

⁽¹⁰⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 36 000 LDT per year.

⁽¹¹⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 6 000 LDT per year.

⁽¹²⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 60 000 LDT per year.

⁽¹³⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 15 000 LDT per year.

⁽¹⁴⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 12 000 LDT per year.

⁽¹⁵⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 23 000 LDT per year.

⁽¹⁶⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 40 000 LDT per year.

⁽¹⁷⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 60 000 LDT per year.

⁽¹⁸⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 10 000 LDT per year.

⁽¹⁹⁾ According to its permit, the facility is authorised to recycle a maximum 30 000 LDT per year.

⁽²⁰⁾ According to its permit, the facility is authorised to recycle a maximum 6 000 LDT per year.

⁽²¹⁾ According to its permit, the facility is authorised to recycle a maximum 45 000 LDT per year.

Name of the facility	Method of recycling	Type and size of ships that can be recycled	Limitations and conditions under which the ship recycling facility operates, including as regards hazardous waste management	Details on the explicit or tacit procedure for the approval of the ship recycling plan by the competent authority ⁽¹⁾	Maximum annual ship recycling output, calculated as the sum of the weight of ships expressed in LDT that have been recycled in a given year in that facility ⁽²⁾	Date of expiry of inclusion in the European List ⁽³⁾
----------------------	---------------------	---	--	--	---	---

- ⁽²²⁾ According to its permit, the theoretical maximum annual ship recycling capacity of the facility is 100 000 LDT per year.
- ⁽²³⁾ According to its permit, the theoretical maximum annual ship recycling capacity of the facility is 47 500 LDT per year.
- ⁽²⁴⁾ According to its permit, the theoretical maximum annual ship recycling capacity of the facility is 100 000 LDT per year.
- ⁽²⁵⁾ According to its permit, the facility is authorised to recycle a maximum 75 000 LDT per year.
- ⁽²⁶⁾ According to its permit, the facility is authorised to recycle a maximum 75 000 LDT per year.
- ⁽²⁷⁾ This date of expiry is set by reference to a period of validity corresponding to five years from the date of entry into force of this Decision.
- ⁽²⁸⁾ According to its permit, the facility is authorised to recycle a maximum 30 000 LDT per year.
- ⁽²⁹⁾ This date of expiry is set by reference to a period of validity corresponding to five years from the date of entry into force of this Decision.
- ⁽³⁰⁾ According to its permit, the facility is authorised to recycle a maximum 30 000 LDT per year.
- ⁽³¹⁾ According to its permit, the facility is authorised to recycle a maximum 10 000 LDT per year.
- ⁽³²⁾ This date of expiry is set by reference to a period of validity corresponding to five years from the date of entry into force of this Decision.
- ⁽³³⁾ According to its permit, the facility is authorised to recycle a maximum 85 000 LDT per year.
- ⁽³⁴⁾ This date of expiry is set by reference to a period of validity corresponding to five years from the date of entry into force of this Decision.
- ⁽³⁵⁾ According to its permit, the facility is authorised to recycle a maximum 85 000 LDT per year.
- ⁽³⁶⁾ This date of expiry is set by reference to a period of validity corresponding to five years from the date of entry into force of this Decision.
- ⁽³⁷⁾ According to the information submitted, the theoretical maximum annual ship recycling capacity of the facility is 40 000 LDT per year.
- ⁽³⁸⁾ According to its permit, the facility is authorised to recycle a maximum of 300 000 LDT per year.

Part B

Ship recycling facilities located in a third country

Name of the facility	Method of recycling	Type and size of ships that can be recycled	Limitations and conditions under which the ship recycling facility operates, including as regards hazardous waste management	Details on the explicit or tacit procedure for the approval of the ship recycling plan by the competent authority ⁽¹⁾	Maximum annual ship recycling output, calculated as the sum of the weight of ships expressed in LDT that have been recycled in a given year in that facility ⁽²⁾	Date of expiry of inclusion in the European List ⁽³⁾
----------------------	---------------------	---	--	--	---	---

⁽¹⁾ As referred to in Article 7(3) of Regulation (EU) No 1257/2013.

⁽²⁾ As referred to in Article 32(1), point (a), third sentence, of Regulation (EU) No 1257/2013.

⁽³⁾ The inclusion of a ship recycling facility located in a third country in the European List is valid for a period of five years from the date of entry into force of the relevant Commission Implementing Decision which provides for the inclusion of that facility, unless otherwise stated.

⁽⁴⁾ The theoretical maximum annual ship recycling capacity of the facility is 120 000 LDT per year.

⁽⁵⁾ The theoretical maximum annual ship recycling capacity of the facility is 60 000 LDT per year.

⁽⁶⁾ The theoretical maximum annual ship recycling capacity of the facility is 75 000 LDT per year.

⁽⁷⁾ The theoretical maximum annual ship recycling capacity of the facility is 75 000 LDT per year.

⁽⁸⁾ The theoretical maximum annual ship recycling capacity of the facility is 60 000 LDT per year.

⁽⁹⁾ The theoretical maximum annual ship recycling capacity of the facility is 70 000 LDT per year.

⁽¹⁰⁾ The theoretical maximum annual ship recycling capacity of the facility is 80 000 LDT per year.

⁽¹¹⁾ The theoretical maximum annual ship recycling capacity of the facility is 70 000 LDT per year.

⁽¹²⁾ The theoretical maximum annual ship recycling capacity of the facility is 30 000 LDT per year.

⁽¹³⁾ The theoretical maximum annual ship recycling capacity of the facility is 90 000 LDT per year.

⁽¹⁴⁾ The theoretical maximum annual ship recycling capacity of the facility is 100 000 LDT per year.

⁽¹⁵⁾ According to its permit, the facility is authorised to recycle a maximum of 7 275 LDT per year.

⁽¹⁶⁾ According to its permit, the facility is authorised to recycle a maximum of 38 148 LDT per year.

⁽¹⁷⁾ The theoretical maximum annual ship recycling capacity of the facility is 120 000 LDT per year.
