1. OBJECTIVE

2. STATUTORY SURVEYS

In accordance with relevant international law and regulations, as well as national legislation, ships wishing to register under Portuguese flag shall be subject to surveys before they are allowed to register and issued with statutory certificates.

The Portuguese Administration gives, as a principle, due recognition to initial and subsequent surveys carried out by, or on behalf of, the former Administration.

The scope of the surveys required at the transfer of flag may be the ones specified below. However, factors such as the age of the ship or the company's and/or the ship's PSC inspections performance history, may be taken in due consideration in determining different scopes for the surveys required.

3. SCOPE OF SURVEYS

Prior to issuing statutory certificates on behalf of the Portuguese Administration the following surveys should be completed successfully.

3.1 WITHIN THE THREE MONTHS' TIME FRAME

If the change of flag takes place within the three months' time frame of the validity or anniversary dates of the statutory certificates, then the due renewal, periodical, intermediate or annual surveys, as applicable, are required to be carried out.

3.2 OUT OF THE THREE MONTHS' TIME FRAME

If the change of flag takes place out of the three months' time frame of the validity or anniversary dates of the statutory certificates, then additional surveys of the scope of annual surveys should be carried out.

3.3 SAFETY EQUIPMENT SURVEY

Notwithstanding the above, if the losing flag is a non-EU flag and/or if there is a simultaneous change of the company's ISM, then the scope of the safety equipment survey should correspond to the one of a renewal survey and include the verification of compliance with the requirements of Directive 2014/90/UE (MED) as applicable (see [DGRM Circular No 57](#)).

3.4 LRIT

All Portuguese Flagged Vessels for which LRIT is mandatory shall be integrated into the EU LRIT CDC (Data Centre), subject to a satisfactory conformance test of the shipborne LRIT equipment.
